ABOUT THE FORUM

As Guam stands at the forefront of Indo-Pacific strategy, the need for resilient infrastructure, coordinated planning, and industry capacity continues to grow. The 2026 SAME Guam Post Industry Forum serves as a platform where defense, government, and industry leaders come together to align priorities, share insights, and build partnerships that will define the region's future.

This forum connects vision to execution—bringing together those who plan, design, build, and sustain Guam's next generation of infrastructure.

What To Expect

- Strategic insights from defense and government leadership
- Infrastructure modernization across power, water, and port systems
- Innovation in construction, technology, and resilience
- Workforce development, housing, supply, and logistics solutions for sustained growth
- Industry engagement and partnership development

Hear Firsthand How Your Company Can Get Involved

Businesses from across Asia, the United States, Guam, and the Marianas will gather at the Dusit Thani Guam Resort to learn how to participate in the historic expansion of America's strategic presence in the Indo-Pacific region. Hundreds of government and industry representatives are expected to attend.

The SAME Guam Post, along with its affiliated organizations across the United States, is actively engaging businesses to build partnerships with local and regional companies. These collaborations aim to implement long-term strategies that generate jobs and support a stronger, more sustainable future for Guam, the Marianas, and Micronesia.

By fostering communication and strengthening relationships among military, public, private, academic, and professional sectors, the forum will identify key challenges and develop solutions in support of national security and regional growth.

Participation in this event means being part of a defining moment for Guam and the region. Attendees will gain access to the most current, relevant, and actionable information available—directly from military representatives responsible for overseeing upcoming design, construction, and service contracts.

Meet the Companies Seeking Teaming Partners

Organized by the Guam Post of the Society of American Military Engineers, the forum will bring together construction contractors, architects, engineers, suppliers, and service providers from Guam and the United States.

This event presents an unprecedented opportunity for private companies to engage directly with senior leaders from both the U.S. military and the Government of Guam. The forum is designed to highlight program challenges, identify opportunities, and explore collaborative solutions to ensure the success of strategic defense initiatives.

A MESSAGE FROM THE PRESIDENT

Håfa Adai,

On behalf of the Society of American Military Engineers (SAME) Guam Post, it is my pleasure to welcome you to the Guam Industry Forum 2026.

I would like to extend my sincere appreciation to our distinguished speakers, panelists, sponsors, exhibitors, and attendees. Your participation, expertise, and continued support make this event possible, and we are truly grateful to have you with us.

This year's forum comes at a pivotal time as Guam continues to play a critical role in our nation's strategic priorities. The demand for resilient infrastructure, innovative solutions, and a strong, capable workforce continues to grow. The Guam Industry Forum provides an opportunity for military, government, industry, and academic leaders to come together, exchange ideas, discuss emerging challenges, and strengthen the relationships that will help shape Guam's future and support regional readiness.

Over the next few days, you'll hear directly from military and government leaders overseeing major infrastructure, construction, and modernization initiatives across Guam and the Indo-Pacific. I encourage you to take full advantage of the presentations, panel discussions, and networking opportunities. Whether you're here to gain insight, share your expertise, or explore new opportunities, I hope you'll make meaningful connections with colleagues and partners from across our community.

The SAME Guam Post is proud to invest in the next generation of engineers, architects, and technical professionals. As a nonprofit organization, proceeds from this forum support scholarships and educational programs that help develop Guam's future workforce. Your participation not only strengthens today's collaborations but also helps create opportunities for tomorrow's leaders.

Thank you for being part of the Guam Industry Forum 2026. Together, we are building stronger partnerships, advancing regional readiness, and helping shape a stronger future for Guam and the Indo-Pacific.

PRE-EVENT

TUESDAY, JULY 28, 2026

- ★ 0830-1700 **EXHIBITOR SET-UP**

- ★ 1400-1900 **PRE-REGISTRATION**
Ballroom Foyer

Pre-registration will be available at the Forum location, The Guam Convention Center, on the 6th floor of the Dusit Thani Guam Resort.

- ★ 1700-1900 **HÅFA ADAI WELCOME RECEPTION**
Dusit Thani Guam Resort Lobby Lounge
All registrants are invited to meet, relax and network.
Sponsored by: First Hawaiian Bank

DAY 1

WEDNESDAY, JULY 29, 2026

- ★ 0700-0800 **FORUM CHECK-IN**
Ballroom Foyer

- ★ 0800-0830 **OPENING REMARKS**
Grand Ballroom

Forum Opening:
Presentation of Colors: **JFK AFJROTC**
National Anthem, Guam Hymn, Inifresi: **Krystal Paco-San Agustin**

Welcoming Remarks: **Shierly Caceres, President, SAME Guam Post**
Welcome Remarks: **The Honorable Lourdes Leon Guerrero, Governor of Guam**

- ★ 0830-0930 **The Pacific Deterrence Initiative and Guam's Strategic Future**
OPENING SESSION

As a cornerstone of the Pacific Deterrence Initiative, Guam is central to strengthening U.S. military readiness, resilience, and deterrence across the Indo-Pacific. This session explores Air Force priorities: policy reform, accelerated infrastructure delivery, housing modernization, energy resilience, industry partnership, and coordination with Joint Marianas and Guam to keep recapitalization funded and on schedule.

Honorable Michael Borders Jr., Assistant Secretary of the Air Force for Energy, Installations, and Environment at Department of the Air Force
Moderator: **Noel Enriquez, F, SAME**

SAME FORUM AGENDA 2026

0930-1030 **Guam's DOW Infrastructure Growth: Power, Water, Wastewater, Airport & Port Capacity** PANEL DISCUSSION

Focuses on how the island is upgrading its power, water, wastewater, and port systems to meet rising demand, improve reliability, and strengthen long-term resilience. It highlights modernization efforts, regulatory and capacity challenges, and the importance of coordinated planning to support Guam's economic growth and national security.

Panelists:

John Benavente, PE, General Manager, Guam Power Authority

Brett E. Railey, PE, Assistant General Manager - Engineering, Guam Water Authority

Rory Respicio, General Manager, Port Authority of Guam

Vince Arriola, Director, Department of Public Works

John Quinata, Executive Manager, Guam International Airport Authority

Moderator: **Vera Topasna, Executive Director, Community Defense Liaison Office**

★

1030-1100 **NETWORKING BREAK/EXHIBIT HALL ENGAGEMENT**

Ballroom Foyer/Ballroom A&B

Sponsored by: AECOM

★

1100-1200 **MILCON Reform: New Tools for Accelerated Project Delivery** PRESENTATION

Focuses on recent MILCON reform efforts and new delivery tools intended to accelerate projects for the warfighter. This presentation will highlight the emerging use of OTA, accelerated and progressive design-build, industrialized construction, and headquarters-level acquisition strategy changes that may shape future MILCON and repair/modernization opportunities.

Eugene T. Mesa, PE, NAVFAC Marianas

Moderator: **Caroline Haatveit, PE, GE, SAME Guam Post**

★

1200-1245 **The FY26 NDAA & Guam: Aligning New Authorities to Deliver Indo-Pacific Readiness** PANEL DISCUSSION

A focused discussion through Industry Government Engagement (IGE) examining how the new authorities authorized in the FY26 NDAA are being applied in support of regional readiness and in the defense of Guam. These new authorities are intended to remove bureaucratic barriers enabling the Department of War to rapidly scale proven capabilities in response to evolving operational requirements in the Indo-Pacific. The intent is to shift the acquisition system from prioritizing processes and compliance to prioritizing speed, adaptability, and mission outcomes. Attendees will gain practical knowledge on how government and industry are collaborating at the speed to capability in delivering urgently needed built infrastructure in support of the warfighter.

Panelists:

Colonel Alexis Johnson, PACOM/J44

**Robert B. Bouffard, Lt Col., USAF, Command Civil Engineer, Headquarters
Pacific Air Forces (HQ PACAF)**

Brian Weinstein, Senior Principal, Stantec

Laurie Scott, Director, Strategic Client Alignment, ECC

Frank Blaz, Chief of Staff, 356th Theater Support Group, USAF

1345-1430 Building Guam: Collaborative Island-wide Master Planning
PANEL DISCUSSION

As Guam experiences unprecedented military investment and regional growth, effective collaboration between military and civilian planners has become increasingly important. This panel will examine best practices, challenges, and opportunities for integrating long-range planning efforts to support mission readiness while enhancing quality of life for the island's residents.

Panelists:

Donald Henderson, PE, Director of Plans, Policy and Strategy (JS)
Vera Topasna, Executive Director, Community Defense Liaison Office
Matt Santos, Deputy Director, Bureau of Statistics and Plans
Moderator: **Komal Dewan, AECOM**

1430-1515 Global Construction Market Opportunities: Materials, Shipping, and Workforce in 2026
PANEL DISCUSSION

A focused discussion on global construction market opportunities in 2026, examining materials availability, shipping challenges, and workforce constraints—and how industry leaders are adapting to manage risk and maintain project delivery.

Panelists:

Stephen Gatewood, Sales and Customer Service Manager, Matson
Leonard Kaae, President, Black Construction Corporation
Melinda Swavely, Attorney
Robert B. Bouffard, Lt Col., USAF, Command Civil Engineer,
Headquarters Pacific Air Forces (HQ PACAF)
Moderator: **Phil Santos, SAME Guam Post**

SAME FORUM AGENDA 2026

1545-1630 **Risk and Resiliency for Our Nation's Critical Infrastructure**
A Discussion on GUM Future Microgrid
PANEL DISCUSSION

As Guam strengthens its resilience against extreme weather, fuel supply disruptions, and grid instability, microgrids are becoming a key solution for safeguarding critical infrastructure and ensuring reliable power. This panel will examine how microgrid investments can enhance energy security, support essential services, and advance Guam's transition to a more sustainable and resilient energy future.

Panelists:

Frank Santos, GIAA Consultant, TMG

John Cruz, PE, Assistant General Manager, Guam Power Authority

Brennan Sydor, Principal, Aviation, Energy & Sustainability, EXP

Dorukhan Goksedef, Lead Mechanical Engineer-Mission Critical, EXP

Moderator: **Jenny Bowers, Vice President, EXP Guam, SAME Guam Post**

★

1630-1645 **Vision 2030: Guam's Future As A Resilient, Strategic Pacific Hub**
DAY ONE WRAP-UP

Focuses on Guam's role as a key Indo-Pacific hub by aligning government, military, business, and community efforts to strengthen infrastructure, support regional security, and build a sustainable, resilient economy.

The Honorable James Moylan, Delegate to U.S. House of Representatives, Guam

★

1645-1900 **NETWORKING MIXER**

SAME FORUM AGENDA 2026

DAY 2

THURSDAY, JULY 30, 2026

0730-0750 **FORUM CHECK-IN/EXHIBITS OPEN/NETWORKING**
Grand Ballroom

★

0755-0800 **OPENING REMARKS**
The Honorable Joshua F. Tenorio, Lieutenant Governor of Guam

★

0800-0845 **Theater Posture Scene Setter**
PRESENTATION

This session provides an overview of key Pacific Deterrence Initiative projects planned and underway across the U.S. Indo-Pacific Command area of responsibility, highlighting their role in strengthening regional posture, infrastructure, and operational readiness. The presentation will also share insights into current INDOPACOM messaging and priorities to provide context on the strategic environment and ongoing efforts to support deterrence in the Pacific.

Col. Alexis R. Johnson, Chief, Posture Management/Infrastructure (J442), USAF
Moderator: **Manny Guarin, PE, SE, PMP, AECOM**

★

0845-0930 **Disaster Response and Mission Continuity: Building Resilience Before Crisis**
PANEL DISCUSSION

Disaster response is not only a matter of emergency management — it is a matter of community resilience, economic stability, and mission continuity. From typhoons and earthquakes to infrastructure failures and regional emergencies, our ability to prepare, respond, and recover depends on strong coordination among government agencies, the military, utilities, contractors, first responders, and community partners.

This panel will examine lessons learned from recent disasters, including preparedness, emergency response, critical infrastructure restoration, logistics, emergency contracting, debris management, mutual aid, and military-civilian coordination, with a focus on strengthening our people, infrastructure, and readiness before the next crisis.

Panelists:

Clement Bermudes, Homeland Security Advisor, CNMI Homeland Security and Emergency Management

Lucia Perez, Special Projects Coordinator, Guam Homeland Security

Prashant Khanna, PE, Vice President, ECC

CAPT Alan Eichelman, PE, NAVFAC Marianas

Moderator: **Agapito "Pete" Diaz, PE, SAME Guam Post**

Manny Guarin, Sr. Program Manager, AECOM

★

0930-1015 **Build Faster, Build Smarter: How Alternative Construction Methods Are Redefining What's Possible on Guam**
PANEL DISCUSSION

With billions in defense investment flowing to Guam under the Pacific Deterrence Initiative, the Department of War has made clear that business as usual won't deliver at the speed the mission demands.

DAY 2

SAME FORUM AGENDA 2026

Recent directives — from the November 2025 Warfighting Acquisition System reforms emphasizing speed-to-capability, commercial solutions, and Other Transaction authorities, to FY26 NDAA provisions targeting MILCON planning delays — are opening the door to construction methods once considered off-limits for federal work. This panel examines how alternative delivery is already reshaping projects on Guam and across the region: modular and industrialized construction, offsite prefabrication, 3D-printed concrete structures, mass timber, and accelerated and progressive design-build. Panelists will address what these methods mean in Guam's unique environment — typhoon and seismic loads, shipping and materials constraints, and a limited workforce — and share practical lessons on where they cut schedule and cost, where they don't, and what government and industry must do to scale them.

Panelists:

Michael Roth, Director of Business Development, Gilbane

Tim Dewitt, Director INDOPACOM Sales, ADS, Inc.

Colonel Landon Phillips, HQ PACAF A4

Moderator: **Aaron Isle, SAME Guam Post**

Sponsored by: Nan Inc.

★

**1045-1130 Regional Readiness: From One Guam to One Pacific
Infrastructure Development Across the Second and Third Island Chains
PANEL DISCUSSION**

Indo-Pacific readiness does not stop at Guam's shoreline. Building from the "One Guam" approach — aligning military, government, industry, and community priorities inside and outside the fence — this panel explores how a broader regional understanding of security and readiness requirements must translate into coordinated infrastructure execution. As Guam continues to serve as a critical hub for Indo-Pacific operations, the larger question is how readiness extends beyond one island into a connected regional network across the Second and Third Island Chains — including the CNMI, Palau, the Federated States of Micronesia, the Republic of the Marshall Islands, and other Pacific partners.

This discussion will examine how readiness can be delivered across this regional network in a way that supports both mission requirements and long-term island resilience. What does the military need to achieve access, sustainment, dispersal, disaster response, and operational flexibility across the Pacific? Just as critical, what do local governments, agencies, utilities, communities, and the AEC industry need to plan, permit, fund, build, and maintain the infrastructure that supports mission readiness, local resilience, and long-term island security?

SAME FORUM AGENDA 2026

This panel will also discuss the practical realities of execution: regional coordination, infrastructure gaps, inter-island logistics, supply chains, local capacity, workforce and housing constraints, federal investment, and the partnerships needed to build a stronger regional readiness network.

Panelists:

Aaron Isle, Vice President, Federal Services, SLSCO

Colonel Landon Phillips, HQ PACAF A4

CAPT Ryan McGoldrick, Posititon, Affiliation

Tim Wallace, PACOM/JPMO

Moderator: Doyon Morato, SAME Guam Post

1130-1230

Regional Military Outlook: Shore C2, Organizational Updates, and Program Updates PRESENTATION

Provides a joint update from NAVFAC Marianas and the 36th Civil Engineering Squadron on governance, project delivery, and infrastructure priorities across Guam and the broader Indo-Pacific region. Topics include recent CNIC/NAVFAC responsibility shifts, ROICC field office realignment, and the transition of OICC Marine Corps Marianas. The session will also highlight ongoing construction and sustainment efforts, provide industry with updates on upcoming project forecasts, and provide a synopsis of the key defense infrastructure initiatives shaping the future of Guam and the region.

Panelists:

CAPT Alan Eichelman, PE, NAVFAC Marianas

Frank Ichihara, Deputy CES

Moderator: Robert W. Jackson II, President & CEO, MOST Services LLC.

SAME FORUM AGENDA 2026

1345-1430 **Securing Cyber-Ready Infrastructure in the Indo-Pacific - CMMC, AI, and the Guam Defense Buildup** PANEL DISCUSSION

Recent changes to the Department of War's Cybersecurity Maturity Model Certification (CMMC) program have shifted the compliance landscape for defense contractors, pausing the planned Phase II rollout while reaffirming that cybersecurity remains a non-negotiable requirement across the Defense Industrial Base. For contractors supporting the Indo-Pacific—and especially Guam's rapidly expanding military infrastructure—the challenge is no longer simply preparing for a certification deadline, but building resilient cybersecurity programs that can adapt to evolving policy, AI-enabled threats, and mission demands.

This panel brings together leaders from industry and the Federal Government to discuss what the evolving CMMC framework means for contractors operating in a forward-deployed, infrastructure-constrained environment where submarine cable dependency, supply chain resilience, and civil-military coordination create cybersecurity challenges not typically addressed in mainland frameworks. Panelists will explore practical approaches to strengthening cyber resilience, preparing for future CMMC requirements, responsibly adopting AI, and protecting the critical infrastructure that underpins Indo-Pacific operations.

Attendees will leave with actionable insights on navigating an evolving regulatory environment while strengthening cybersecurity readiness for current and future defense missions.

Panelists:

Plamin Rabino, Chief Information Officer, Guam National Guard

Andy LaBrunda, Senior Vice President, GTA

Michael Cardenas, CTO & Founder, MC3 Technologies

Giovanni Williams, CISA Cybersecurity Advisor, Pacific Territories
