BUILDING RESILIENCE TOGETHER: STRENGTHENING CRITICAL INFRASTRUCTURE THROUGH COLLABORATION BETWEEN LOCAL GOVERNMENT AND MILITARY PARTNERS

Grand Ballroom

As Guam continues to serve as a critical strategic location for the U.S. military, the resilience and security of its local infrastructure are fundamental to both national defense and community well-being. This panel will bring together leaders from local government, water, and power authorities to discuss their coordinated efforts in building a robust, sustainable, and secure cyber infrastructure that supports both the local community and the military presence on the island. The panelists will focus on how local agencies are enhancing the resilience and management of critical digital systems governing water, power, and communication networks. The robust cybersecurity measures and sustainable practices each of these cyber security partners will be discussed. Given the strategic importance of Guam in the region, the panel will also address the vital need for these sectors to collaborate to ensure that essential infrastructure is prepared for cyber threats, and the demands of military operations.

CONTINGENCY CONTRACTING

Grand Ballroom

Naval Facilities Engineering Systems Command (NAVFAC) Marianas leveraged (NAVFAC) Pacific's Global Contingency Services Multiple Award Contract (GCSMAC), to respond to the destruction brought on Guam by Typhoon Mawar. The additional construction required to address the aftermath was stacked on

top of an already robust military construction program before the storm. This contingency contracting tool was used for responding to and supporting emergency requirements on very short notice, while simultaneously promoting competition. This competition affords the government an opportunity to receive innovative solutions that best meet cost/price, schedule, and performance requirements. The goal of this session is to hear from contractors on the GCSMAC regarding takeaways and lessons learned from the execution of contracts during Typhoon Mawar.

Moderator: **Mr. Agapito (Pete) Diaz**, Board Member, SAME Guam Post Board of Directors

Mr. David Preston, INDO PACOM Strategic Program Manager, KBR, Inc.

DAY 2

FRIDAY, NOVEMBER 15, 2024

0800 - 0830

OPENING REMARKS

Grand Ballroom

The impact and importance of the investment in facilities, resiliency and defense projects and programs by the Department of Defense in Guam and the Western Pacific cannot be understated. The effort is a complex and challenging engineering and construction initiative that coordinates many services and many disciplines into the largest federal investment in Guam by the federal government since WWII. Admiral Devore will explain how the effort is proceeding, the critical challenges that must be addressed and why this effort is essential to the security of the United States.

Rear Admiral Brent De Vore, Commander, Joint Region Marianas

0830 - 0945 **WORKFORCE ISSUES**

Grand Ballroom

One of the greatest challenges facing contractors, suppliers, service providers and logisticians is the lack of skilled and available workforce. Hear what the availability of workers locally are, what skills can be found in the region, what actions are being taken to increase and develop the workforce and what the requirements are for importing both H2 and H1 laborers into Guam and the CNMI.

Moderator: **Ms. Denise Mendiola**, Member, SAME Guam Post

Mr. Simon Sanchez, Commissioner, Consolidate Commission on Utilities

1100 - 1200 HOUSING AND WORKFORCE HOUSING

Grand Ballroom

Guam is facing a significant housing shortage, which presents major challenges as the military construction continues to peak. Two critical issues need addressing: the lack of adequate workforce housing for H-2B workers essential for construction projects, and the overall shortage of housing, impacting both local residents and military personnel. Solving this dual challenge requires collaboration among local, private, and federal stakeholders. This session will provide insights into the current housing landscape and potential solutions, with presentations from key industry and government leaders.

Moderator: **Ms. Doyon Morato**, Board Member, SAME Guam Post Board of Directors

Ms. Siska Hutapea, President, Cornerstone Valuation Guam, Inc.

Mr. Fernando Esteves, Deputy Director, GHURA

Speaker: **Mr. Charlie Perham**, Past SAME National President

The Society of American Military Engineers (SAME) plays an integral role in linking communities and businesses to meet the engineering needs of the U.S. Department of Defense. The SAME national representative will explain the mission of SAME and its role in the construction and engineering industry and U.S. National Security.

RVP Medal Awards

1300 - 1430 ALTERNATIVE CONSTRUCTION METHODS (PANEL DISCUSSION)

Grand Ballroom

The rising costs, logistical challenges and prolonged timelines of construction on Guam have created a critical need for faster, more cost-effective building solutions. This urgency is driven by the strategic importance of maintaining readiness in the Indo-Pacific region and the logistical challenges of acquiring key components for military operations in such a remote location. In response, the Navy is seeking innovative ideas from the private sector to address these issues

and enhance competitiveness. A representative from NAVFAC will outline the Navy's concerns, while industry leaders will share potential solutions their companies are exploring—such as alternative construction methods and materials—to streamline vertical and horizontal construction projects. This panel seeks to foster collaborative efforts between the military and private sector to find practical, effective strategies for the region's unique construction challenges.
