**DELIVERING INDO-PACIFIC READINESS:
INTEGRATING INFRASTRUCTURE,
INNOVATION, AND INDUSTRY CAPACITY**

The GUAM Industry Forum 2026

The **2026 SAME Guam Post Industry Forum**, themed “Delivering Indo Pacific Readiness Integrating Infrastructure, Innovation, and Industry Capacity,” serves as a premier strategic platform convening senior representatives from the defense, government, and industry sectors to inform and shape the next decade of growth across Guam and the Indo Pacific region.

Hear Firsthand How Your Company Can Get Involved

Businesses from across Asia, the United States, Guam, and the Marianas will gather at the Dusit Thani Guam Resort to learn how to participate in the historic expansion of America’s strategic presence in the Indo-Pacific region. Hundreds of government and industry representatives are expected to attend.

The SAME Guam Post, along with its affiliated organizations across the United States, is actively engaging businesses to build partnerships with local and regional companies. These collaborations aim to implement long-term strategies that generate jobs and support a stronger, more sustainable future for Guam, the Marianas, and Micronesia.

By fostering communication and strengthening relationships among military, public, private, academic, and professional sectors, the forum will identify key challenges and develop solutions in support of national security and regional growth.

Participation in this event means being part of a defining moment for Guam and the region. Attendees will gain access to the most current, relevant, and actionable information available—directly from military representatives responsible for overseeing upcoming design, construction, and service contracts.

Meet the Companies Seeking Teaming Partners

Organized by the Guam Post of the Society of American Military Engineers, the forum will bring together construction contractors, architects, engineers, suppliers, and service providers from Guam and the United States.

This event presents an unprecedented opportunity for private companies to engage directly with senior leaders from both the U.S. military and the Government of Guam. The forum is designed to highlight program challenges, identify opportunities, and explore collaborative solutions to ensure the success of strategic defense initiatives.
